**HISTORICAL NOTE:**

During its operation from 1926-1952, the Montana Mine in Ruby was a very profitable source of zinc and lead, as well as gold, copper and silver. From 1935-1939 the Montana Mine was the largest producer of zinc and lead in the state of Arizona. Run by the Eagle-Picher Mining & Smelting Company, the mine was located in Ruby, Arizona, which was officially founded in 1907 and named after the wife of general store owner Julius Andrews. In 1944 Eagle-Picher suspended mining operations at the Montana Mine and leased it to Mr. Hugo Miller, who also ended up purchasing the mining camp of Ruby. Miller worked the Montana Mine till the early 1950s, at which point he sold the mine to private interests in Tucson. Not long after the Eagle-Picher operations ceased Ruby became a ghost town and its remnants, including the Montana Mine, are now privately owned.

**SCOPE AND CONTENT NOTE:**

This collection contains many hand-drawn, colored maps of the mines. The collection also contains an almost-complete set of financial records that document the operations of the mine. Also of note are records of personnel activities such as accidents and overtime, as well as the daily Shift Boss reports from the end of 1934 through 1939.

This collection is arranged in six series:
