

**TITLE:** Arizona Historical Society Biography Collection

**DATE RANGE:** Territorial Arizona – present

**CALL NUMBER:** PP MS 300

**PHYSICAL DESCRIPTION:** 32linear feet (63 document boxes)

**PROVENANCE:** Multiple donors

**COPYRIGHT:** Copyright varies

**RESTRICTIONS:** This collection is unrestricted.

**CREDIT LINE:** Biography Collection, PP MS 300, Arizona Historical Society – Papago Park

**PROCESSED BY:** Michelle Bickert, August 2012; updated 2017

**HISTORICAL NOTE:** The Biography Collection is an active, artificial collection that had not previously existed at the Arizona Historical Society (AHS). The donations came from multiple sources. The Biography Files donated to AHS by the Arizona Historical Foundation (AHF) comprise the core of this collection. Files from the AHS vertical files and Small Manuscripts collection were integrated during the process of removing duplicates, combining files, and evaluating the physical condition of these materials.

The earliest files in the collection were intended to capture information about Arizona pioneers. AHF used a four-page **Pioneer Biography** form which contains sections on parents, siblings, spouses, children, education, work history, religious affiliation, and military service. In addition the form documented when and how the individual arrived in Arizona and memorable experiences while living in Arizona. The forms were filled out by the individual, usually with assistance from a family member or student. Over a quarter of the files include the forms and are marked in the list below.

**NOTE TO POTENTIAL DONORS:** We are actively seeking donations to this collection, especially materials documenting 20<sup>th</sup> and 21<sup>st</sup> Century immigrant communities. For readers who may have materials to add to this collection, please contact the Library and Archives, Arizona Historical Society-Papago Park at 480-929-0292 extension 174.

**SCOPE AND CONTENT NOTE:** The AHS Biography collection contains material relating to over 2100 people who call themselves Arizonans. These individuals span race, age, gender, and class. Although some may be more well-known than others, each has made their contributions to Arizona history; has provided insights on their Arizona experiences; and has offered their unique points of view on life in Arizona.

The files vary widely from one document to many and contain primary and secondary sources including but not limited to: newspaper clippings, obituaries, student research papers, journal

articles, correspondence, financial documents, diaries, and unpublished autobiographies. Original materials vary in condition. Material of particular interest is marked in the list below. Some files contain photographs which are also marked in the list below. New files and additional material are added on a regular basis.

**Additional Resources:** Photographs can be found in the AHS Subject Photo Collection.
