**Western Ways Negatives  
Appendage of MS 1255**

## **DESCRIPTION**

This collection consists of three groupings of negatives associated with the Western Ways Company. The three groupings of negatives are explained below.

### **Group A Negatives**

This grouping consists of black and white negatives matched to images in the MS 1255 Western Ways Collection. There are ten boxes associated with this group. They entail images primarily from Arizona and the Southwest with additional negatives of Mexico, California, and Montana. Negatives date from the late 1940s to the early 1960s.

### **Group B Negatives**

These negatives are also black and white but no prints were located in the MS 1255 Collection. The grouping consists of 27 boxes and contains images of Arizona, the Southwest and other locations. Some of the additional locations include California, Mexico, Montana, New Mexico, Colorado, Utah, and California. Again the images date from the late 1940s to the early 1960s.

### **Group C Negatives**

This group consists of color negatives. Images duplicate many of the scenes, activities, and locations of the two previous groupings. Some color negatives were transposed into black and white negatives and images. Color deterioration is present on many of the negatives but can be corrected through reproduction processes. Most negatives have no photographer identifications. Images represent the same time periods as Groups A and B. Almost no color images have been reproduced and placed in the MS 1255 Collection.

## **COPYRIGHT**

The Arizona Historical Society holds copyright on all images in this collection by Herbert, Manley, and Balistrero. All other photographer images are not covered.

## **PROCESSING**

The three negative groupings were processed by Dave Mackenberg in November 2007.

## Box and Folder Listing

### Group A Negatives

Box 1 – 10 Negatives matched to photographs by box and folder listings in MS 1255  
Collection

### Group B Negatives
